

Technocratic Mafia of Rome

The House of Odescalchi is a top bloodline of the Black Nobility with princely titles and palaces in Rome, Italy, and Hungary. The Odescalchis are the most tyrannical family on the planet and are using particle accelerators to oppress society. They are lawless criminals that are extremely arrogant. The Odescalchis are the Dukes of Syrmia in Hungary and they have owned Ilok Castle in Croatia. The Odescalchis own the Zemun Mafia clan around Belgrade. Syrmia is near Zemun. The currently imprisoned Sretko Kalinic has been the boss of the Zemun Mafia and he is a mass murderer and cannibal. The still existing Odescalchi de Szerem of Hungary are titled Princes of Serbia. The Italian Odescalchis had titles in Como, Italy along the Swiss border and also established a wealthy bank in Genoa. The Odescalchi family has been involved with the Roman Catholic Church producing Pope Innocent XI or Benedetto Odescalchi as well as several Catholic bishops. Pope Innocent XI freed Jewish prisoners in Venice and then also banned Jewish banks from making loans which benefitted his family's Genoese bank. The Odescalchi, Giustiniani, Savoy, and Pallavicini families likely have a large amount of shares in Banca Carige. Banca Carige was founded in 1483 and is headquartered in Genoa. Norway's central bank or Norges Bank currently has about 2% shares in Banca Carige. The royal family of Norway are covertly allied with the Odescalchis and Pallavicinis and funnel their wealth through Banca Carige to finance organized crime, bribes, human trafficking, and gang stalking. Pope Innocent XI and his family's bank were suspected of financing William of Orange who overthrew King James II. Henry Sydney the 1st Earl of Romney was the one who wrote and negotiated the terms with William of Orange. The name Romney means Roman. The Romneys are politicians in Michigan and the Odescalchis own the Detroit Mafia. The Dutch takeover of England occurred under Pope Innocent XI's reign. The Protestant Dutch House of Orange-Nassau are currently intermarried with the north Italian Bourbon-Parma family and have close connections with Rome and the Sovereign Military Order of Malta. The Odescalchi family were involved with

Italian Jesuit factions and were also opposed to the Spanish Jesuits.

Carlo Odescalchi was the son of the Odescalchi and Giustiniani princely banking families and he ruled as the Archbishop of Ferrara, the Grand Prior of the Sovereign Military Order of Malta, Judge of the Roman Rota, and then later became a member of the Society of Jesus. The Prince family of Holland, Michigan serve the Odescalchi family with the Knight of Malta Erik Prince. Erik Prince was a founder of Blackwater and is currently the head Frontier Services Group which has operations in Africa and Asia. The House of Odescalchi are working closely with the Giustiniani and Pallavicini banking families to this day. The Pallavicini family were bankers from Genoa which merged a family branch with the Rospigliosi Papal nobility, and also established a fiefdom in the Austrian-Hungarian territory. The American Daniel Odescalchi is the president of Strategic Advantage International which is a political consulting firm that has done work for Hungarian politicians. The Odescalchi family own some Slovak mafias like the Cernakovci crime family. Andy Stefanovich is a Serbian-American businessman and investor from Detroit and a link between the Serbian Mafia and Detroit Mafia. The Odescalchi family also owns the Detroit Mafia also called the Detroit Partnership which run the Teamsters unions currently headed up by James Hoffa. Jack Giacalone is the head of the Detroit Mafia he serves the Odescalchis and his father and uncle were investigated for the disappearance of Jimmy Hoffa. Daniel Gilbert is a Jewish billionaire that renamed his casino company Jack Entertainment to honor the mafia boss Jack Giacalone. Jack Giacalone and the Tocco family run the Detroit Mafia. A ruthless gang stalker named Steven James Dishon works under the Detroit Mafia and Daniel Gilbert. The Romney family are a political bloodline of Michigan and also involved with the auto industry. Mitt Romney's father George Romney worked for American Motor Corporation which absorbed into Chrysler. The Romney family and Detroit Partnership's agents in the teamsters extorted and manipulated the auto industry to cause the government bailout.

The family often uses the name Erba-Odescalchi for their merger with the Erba family that ruled in the town of Cernobbio, Italy. I believe that CERN was cleverly named after Cernobbio which is on the Italian and Swiss border. Fabiola Gianotti is the Director General of CERN today and she was born in Rome. There have been various Austrian and Hungarian nuclear physicists like John von Neumann. The House of Odescalchi's role from Rome is overseeing the development and use of advanced technologies and weapons in society. CERN oversees most of the particle accelerators around the world and it is the Swiss bankers which are financing the Uranium and Plutonium which fuels them. There is a statue of Shiva at CERN. The nuclear physicist Robert Oppenheimer was involved in the development of nuclear technologies and the creation of the atomic bomb. Robert Oppenheimer quoted Vishnu-Shiva stating "Now I am become Death, the destroyer of worlds." Particle accelerators are a type of nuclear weapon that are enhancing gravity which is like magnetic pressure in the lower atmosphere. Along with HAARP they are able to direct these magnetic emissions over targeted areas. With HAARP and other similar tools controlled by the USAF they can ionize parts of the atmosphere. When the magnetism is released from a particle accelerator they can ionize pathways to move around this magnetic pressure through the vector. When they run these particle accelerators it makes society feel lethargic and more stressed. Gravity is related with time and the perception of time which is basically the speed of movement. The Odescalchis have a clock tower at their Ilok Castle in Croatia. A gang stalker named Jesse Like has been targeting me for decades and has stolen my property, threatened me with a gun, threatened to jump me on three different occasions with his fellow thugs and he works for the Odescalchis. Jesse Like is really a coward that abuses women and cant fight people on his own. He also called the police when someone broke his jaw. That is the nature of these cowardly gang stalkers. The name Like derives from a town near Serbia also near where the Odescalchis ruled in Croatia. the Odescalchis are owners of Serbian Mafias with Sreten Jovic a top Serbian mobster that has operated in the Netherlands. Milan Panic is a Serbian-American businessman and former Prime Minister of Yugoslavia. Milan Panic is an overseer of the Serbian Mafia in the United States.

The word gravity derives from the Latin word gravis which means weight or heavy. Scalchi in Ode-scalchi refers to scales which measure weight. Ode refers to poems and in ancient times odes were used along with harps. They are also using HAARP for individual and mass mind manipulation. HAARP antennas can ionize the atmosphere and also emit radio waves used for electromagnetic harassment. The Pallavicini family of Austria have a statue holding a harp on their palace in Vienna. Prince Moroello della Vittoria Pallavicini and Prince Carlo Odescalchi can be seen socializing together. These families are targeting areas and individuals with magnetic pressure while they also radiate society with mind control frequencies. It is like they are holding someone down and trying to dictate their will onto them. They are ruthless psychopaths that need to be executed. The actor and Scientologist Tom Cruise was married at the Castello Orsini-Odescalchi and serves them as a Knight of Malta. Scientology is involved with using electronic witchcraft on society through brain hacking software like GENESIS, BRIAN, and NEURON operating through most modern electronics and smart devices. GENESIS was created by the Jesuit James Mason Bower. Prince Edmond Odescalchi is a Hungarian born American author and financial consultant that has worked for International Business Machines Corporation and he oversees the use of particle accelerators on Americans. One particle accelerator in my region is the extremely destructive Brookhaven National Laboratory in Long Island headed up by Doon Gibbs who works in Condensed Matter Physics. They are using particle accelerators to create increases in gravitational pressure to condense matter including human beings. Doon Gibbs and the entire leadership of the Brookhaven Laboratory is pure evil. The Odescalchis are oppressors and dictators. The Odescalchis also have an existing Hungarian noble branch with several members and some of this family branch moved to the UK with Paul Eduardo Odescalchi. Current members of this family include Prince Carlo Odescalchi, Princess Lucia Odescalchi, Princess Sophia Odescalchi, Prince Baldassare Odescalchi, Prince Michel Odescalchi, Princess Maria Pace Odescalchi, Princess Vittoria Odescalchi and Prince Edmond Odescalchi. Prince Carlo Odescalchi is the current head and

an extremely dangerous tyrant. Every person on the planet should be demanding that these tyrants be executed.

Prince Carlo Odescalchi is one of the most insolent members of the Black Nobility and he claims he is the head of the Black Nobility. That is what he claims. Prince Carlo is a part owner of the Detroit Mafia as well as Serbian Mafias and he has authority over the Roman Rota a Vatican tribunal which order persecution on people in society and Prince Carlo has authority over CERN and particle accelerator weapons.

Castello Odescalchi is still owned by the Odescalchi family.

Princess Vittoria Odescalchi and Princess Maria Pace Odescalchi are high level witches involved with child murder and commanding female gang stalkers.

Prince Carlo Odescalchi with his wicked wife Princess Lucia Odescalchi and their children are Princess Sophia and Prince Baldassare. Princess Lucia is a jewelry designer and she makes jewelry for royals like the Windsors and Countess Sophie of Wessex. Princess Lucia Odescalchi is a high level witch and a covert bloodline agent of the Lucchesi-Palli family. Prince Carlo Odescalchi works in "Poverty Alleviation" which is a front. Prince Carlo specializes in persecuting people financially and he has command over the Bank of America which was originally called the Bank of Italy and was financed by bankers from Genoa. The Odescalchis were powerful bankers from Genoa.

Prince Carlo claims he is the head of the Black Nobility but really bends over for his cousin Prince Ascanio Massimo-Lancellotti whose mother was an Odescalchi. I am not talking trash about him. This is how these mobsters operate. They use faggotry to dominate over others.

Daniel Odescalchi is an American political adviser that works with Eastern European nations like Hungary. The Odescalchis are both Italian and Hungarian nobles and they use their political influence for managing Serbian Mafias. Daniel Odescalchi has politically advised the Prime Minister of Hungary and his company has worked in Hungary, Slovakia, and Bosnia which have large Serbian populations.

Daniel Odescalchi is president of Strategic Advantage International, a political consulting and public opinion management firm based in New York.

Odescalchi made SAIPR a leader in online campaigning as the internet's penetration became more prominent. Today, SAI hones their client's message and activities online as well as in the field.

SAIPR has worked with political parties in Lebanon, Iraq, **all over Eastern Europe** and the US. They **consulted for the Prime Minister of Hungary**, the **Hungarian Democratic Forum**, Fidesz, the Democratic Convention in Romania, the Party of Co-existence in **Slovakia** and the Alternative Council of Ministers in **Bosnia Herzegovina**. They have advised the Malaki Coalition in Iraq and the March 14th Coalition and the Phalange Party in Lebanon.

Sreten Jocić is a high level Serbian Mafia boss who has had criminal operations in the Netherlands. The Odescalchis are Serbian nobles and they financed the King of the Netherlands to invade and takeover the Kingdom of England. Prince Carlo is the Duke of Syrmia also spelled Sirmium which is a Serbian title of nobility in a former region that included Hungary, Serbia, and Croatia and is near Zemun where the Serbian Zemun clan are headquartered.

<https://www.reportingproject.net/peopleofinterest/biography.php?id=22>

Jocić is one of **Serbia's most feared and notorious mobsters** who has been linked to **several murders** in several countries, and drug trafficking.

In 1993 **Jocić was charged in The Netherlands with attacking a police officer**, but he escaped one year into his sentence. On the run, he went to Serbia, where in 1995 he arranged the murder of his rival, Goran Marjanović, AKA Goksi Bombaš. But before he could be arrested, he fled to Bulgaria, where he hid out for years. In 2002, Interpol finally caught up with him in Bulgaria and arrested him on an outstanding warrant on charges from The Netherlands. That

arrest revealed many curious and powerful connections Jocić established in Bulgaria. Years after the arrest, Bojko Borisov, a former head of the Bulgarian police and current Bulgarian prime minister, faced accusations that he helped protect and hide Jocić. In the Netherlands, Jocić served his full sentence for attacking the police officer, and then was extradited to Serbia to face a 1995 indictment for ordering the murder of Marjanović. Despite the seriousness of the charges, and the fact that he had spent a decade on the run, a Serbian judge allowed Jocić to be freed on bail. While free, he racked up two more charges: One in 2007 for obstructing a police officer, and the other for **illegally possessing weapons and explosive materials**. Finally, justice caught up to him in 2009, when he was charged with involvement in murder of Ivo Pukanić, the owner of the Croatian magazine Nacional. In 2010, he was finally sentenced to 15 years in prison for the Marjanović murder, and he is still awaiting trial in for Pukanić's murder.

The **Zemun Clan** (Serbian Cyrillic: Земунски клан) is one of the **Belgrade clans of the Serbian Mafia**. It is named for the gang's base in Zemun, a municipality of Belgrade. The peak of the clan's power and influence occurred between 1999 and 2003 and they were considered to be **one of the most powerful organizations in Southeast Europe**.

Sretko Kalinic has been a top boss of the Zemun Mafia and he is a violent hit man, mass murderer and cannibal. Nearly all mobsters are cannibals however he admitted to processing one of his victims in a meat grinder.

Kalinic is in Zabela prison for several criminal offenses, including, inter alia, the participation and murder of Serbian Prime Minister Zoran Djindjic. His former "colleagues" in the Serbian media claim that he was the chief execute of the Zemun clan, that he was brutal to the victims and that everyone was **called the Beast** because of that.

The next morbid story continued. **Kalinic bought a meat grinder**, and Vladimir Milisavljevic offered to help him.

We started to melt him, but the machine broke down, because Jurisic had a bullet in his body, and he got stuck. **We had to get another machine**, so we continued our work - Kalinic described. Some of the allegations also say that they have made a **goulash that they ate from the meat**.

Prince Edmond Odescalchi is a Hungarian born American author and financial consultant that has worked for International Business Machines Corporation. Prince Edmund oversees the use of particle accelerators on Americans. Particle accelerators are decreasing or more often increasing gravitational pressure in the atmosphere and they can move this magnetic pressure around by ionizing areas and pathways in the atmosphere. Particle accelerators basically densify the air. When they increase gravitational pressure it causes people or individuals to become slower, more stressed, and lethargic. All particle accelerators need to be shut down.

About **Brookhaven National Laboratory**

Among Brookhaven Lab’s current initiatives are **nuclear science**, energy science, data science, **particle physics**, **accelerator science and technology**, quantitative plant science, and quantum information science.

Doon Gibbs is the Director at the Brookhaven National Laboratory and he specializes in "condensed matter physics." They are using particle accelerators to increase magnetism and gravity which increases pressure. They release this highly magnetized energy into the atmosphere and can move it around by ionizing pathways in the atmosphere. So Brookhaven Laboratory uses nuclear powered

particle accelerators to create large amounts of magnetism which densifies the air and releases it into the atmosphere and also at particle accelerator locations are devices that generate charged particle beams which ionize the atmosphere. High flying aircraft are also equipped with these devices that can ionize the atmosphere so they can control the movement of the released magnetism or gravitational pressure. When this pressure is imposed on matter it causes the matter to condense or densify and they use this as a weapon on society which causes individuals and populations to become stressed, lethargic, tired, and weakened. Doon Gibbs and these criminals doing this need to be killed.

https://en.wikipedia.org/wiki/Condensed_matter_physics

Condensed matter physics is the field of physics that deals with the macroscopic and microscopic physical properties of matter. In particular it is concerned with the "condensed" phases that appear whenever the number of constituents in a system is extremely large and the interactions between the constituents are strong. The most familiar examples of condensed phases are solids and liquids, which arise from the electromagnetic forces between atoms. Condensed matter physicists seek to understand the behavior of these phases by using physical laws. In particular, they include the laws of quantum mechanics, electromagnetism and statistical mechanics.

Statue of Shiva at CERN in Geneva, Switzerland. Shiva is known as the destroyer and Hindu deities often merged at times. In the Bhagavad Gita the deity Vishnu says "Now I have become death, the destroyer of worlds" implying he invoked Shiva. The real nuclear weapons are particle accelerators.

HISTORY: Did Pope Innocent XI bankroll King Billy? It is a question which historians have been mulling over for years, and a new book threatens to generate more debate.

Within days of William of Orange's landing in England in 1688, pamphleteers were suggesting that **Pope Innocent, via his Odescalchi family firm**, had **loaned huge sums of money to the cash-starved William**.

In the light of documents they have unearthed during research in Vatican and Italian state archives, Ms Monaldi and Mr Sorti emphatically **confirm the Innocent-William of Orange money relationship**, saying: "A whole chapter of European history will need rewriting in the light of the documents which **reveal the secret manoeuvrings of Pope Innocent XI and the Odescalchi family**. But to do that will mean raising a curtain of silence, hypocrisy and lies."

He came to public notice during the 1970s during investigations into the **disappearance of Jimmy Hoffa**, as he was one of two Mafia members – the other being Anthony Provenzano – that **Hoffa was to meet the day he disappeared.**[1]

James Hoffa the General President of the International Brotherhood of Teamsters is an agent of the Detroit Mafia. James Hoffa is a criminal associate of the mafia and they run rackets on businesses. They extort business owners and also extort employees. I once worked for a large shipping company for about a week and they required you to join the union. The union only allowed new employees to have part time hours for the first 6 months and extorted 1/5 of the weekly paychecks as labor dues making it completely impossible to financially

survive with the low pay, low hours, and dues. Labor unions are protection rackets.

Tom Cruise is a murderous lunatic and Scientologist who was knighted by the Odescalchis when he got married at their castle in Italy. Scientologists use electronic weapons systems like GENESIS, BRIAN, and NEURON which are "neurological and biological simulators" which are really neuro-bio hacking software that function on most operating systems and can be used to hack electronics and emit these "simulations" or rather neuro-bio hacking signals through wireless frequencies and electronic emissions. GENESIS was created by the Jesuit James Mason Bower.

GENESIS (short for GEneral NEural Simulation System) is a general purpose simulation platform that was developed to support the **simulation of neural systems** ranging from **subcellular components and biochemical reactions** to complex models of **single neurons, simulations of large networks**, and systems-level models. As such, GENESIS, and its version for parallel and networked computers (PGENESIS) was the first broad scale modeling system in computational biology to encourage modelers to develop and share model features and components. Most GENESIS applications involve **realistic simulations of biological neural systems**. Currently GENESIS and the parallel version PGENESIS are used on parallel supercomputers to simulate cortical networks that contain millions of multi-compartmental neurons.

Although the software can also model more abstract networks, there exist other simulation packages that are more suitable for networks of point integrate-and-fire neurons, or connectionist modeling.

James Mason Bower (born February 17, 1954 in Northampton, Massachusetts, USA) is an American **neuroscientist** and CEO and Chairman of the Board of Numedeon Inc., creator of the Whyville.net educational virtual world. He graduated from **McQuaid Jesuit High School in Rochester, New York** attending Antioch College and Montana State University as an undergraduate and then received his PhD in neurophysiology from the University of Wisconsin-Madison, U.S. in 1982.

He has also been involved in numerous science infrastructure efforts, including **establishing and maintaining the GENESIS (software) simulation system**. He has also been involved in establishing a number of conferences and meetings, including in 1987 co-founding the Conference on Neural Information Processing Systems (NIPS)

Prince Moroello Diaz della Vittoria Pallavicini with Prince Carlo Odescalchi and Countess Flaminia Patrizi Naro Montoro who is a sadistic witch and of lower level Roman nobility. The Pallavicini and Odescalchi families both have Genoese branches. The Pallavicini family of Austria have a statue holding a harp on their palace.
